

Demonstrations Aid Science and Math

Learning the uses of the pendulum and different weather instruments helped to make science classes interesting. Some classes

watched science movies produced by Southern Bell.

Mathematics classes were fortunate to receive a new film strip

series. These movies, combined with the enthusiasm of the teachers, made mathematics a greatly enjoyed course.

1.

MR. TED LITCHFIELD: Administrative Assistant; Math; 6th.

MRS. LOUISE STONE: Math; Science; Geography; Math Department Head, 4-6; 4th.

1. After completing a science test, Renee Johnson checks her book for answers.
