

6th Grade Helps With School Functions

Sixth graders made many contributions to WHA. They raised the flags in front of the administrative building. By running a store in Lower School, they increased their treasury. Also, canteen and traffic

duty were included in some of the students' day. Students participated in Saturday basketball, physical education, May Day festivities, and the Christmas program. One of the highlights of the year was a

dance held for the fourth through sixth grades. For the first time sixth graders experienced the trial of exams. Diligent study advanced the students to graduation, the climax of Lower School.
