

5th Graders Strive To Master Skills

This year the 5th grade students learned new skills. The Junior Service League sponsored a five-week art program for them. The 5th graders were the youngest to

participate in the Readak program. They made progress in reading comprehension. All of the 5th grade English classes enjoyed reading and analyzing stories. In

the middle of the year, the students and teachers took a trip to the museum in Calhoun County. A dance and skating party provided extra fun for the fifth grade.
