

First Year Of School Is Exciting To Kindergartners

The first year of school is always exciting to children, and for the children at WHA Kindergarten it was no exception. Learning the letters of the alphabet and learn-

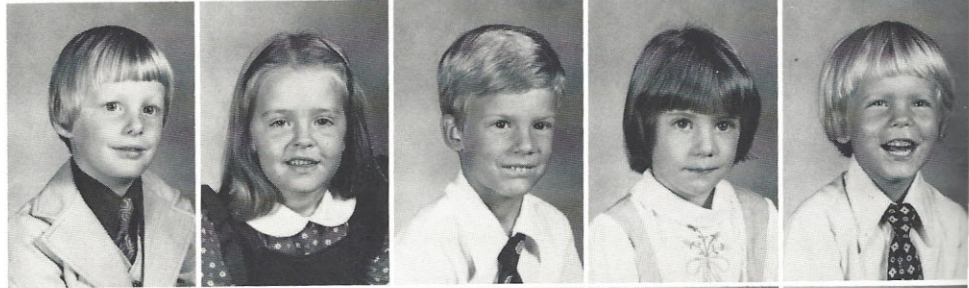

ing numbers kept the students occupied. Weekly testing games gave the students more initiative to learn. Painting, playing with toys, and singing songs added to

the excitement. Fun and hard work were combined to help prepare the young kindergartners for the twelve long years ahead of them at Wade Hampton Academy.
