

# Radio Programs And Pierian Provide New Experiences

Six seniors gained valuable experience by producing radio programs each week. These programs contained news of the current events at WHA. The broad-

casts over WORG, WTND, and WDIX kept the community up-to-date.

The Pierian, a literary magazine, was compiled by a group of sen-

iors. Many WHA students showed their originality in this publication. This collection of articles proved to be widely read by WHA students.
