

1. Getting adjusted to school, these first graders are only beginning their hard years of working.

2. Trying to convey the idea, Brad Waters explains a math problem to his classmates.

3. During the week of cheerleader camp, Meredith Edmonds supervises the sign-painting.

May Logan,
It's really
been super being
in your in 19th D
class. We all love
Mrs. Kisson. He. He.
You're a great guy.
Congratulations on
Mr. Freshman. They
couldn't have picked
a better person.
Good luck in the future
which you probably
won't need. Hope you
keep up with your
baseball. Who knows,
you could become a
star. Don't bother
to put on that old
man mask anymore,
you look good enough
without it. Take
care and have fun in
the sun this summer.
God Bless you!
With love,
Renee
Inebret
