

dogam, it has been just a year! Congrats on getting "Mr. Freshman" to the baseball team. It's too bad you were a real addition to the baseball and basketball teams. It's too bad you didn't go to the sports. How did you like Mrs. Ilt and her algebra II class? I'll miss you well. Hope your summer was a really fun one, I really will get to see you some time. Best wishes in the neighborhood for the future and good luck always.

A Time For Beginnings,

1. Making up a test after school, fourth grader Fran Jameson solves an arithmetic problem.
2. Toward the end of the school year, seniors' minds wander to thoughts of post-graduation.
3. Discussing the day's activities, students await their rides from school.
