

7th Graders Become Involved In School Activities

Seventh graders faced new challenges as they experienced their first year as a part of Upper School. The seventh-grade trip to Charleston was

an interest to all as they toured historic sights. As they settled down to their new routine, they became involved in Upper School activities.

1. A few of the seventh graders assist their "fishermen" at the Halloween Carnival.

2. The seventh grade "cheerleaders" perform a stunt at the Powder Puff football game.
