

Logan, 😊

It's been fun
 being in the same
 study hall w/ you +
 your crazy self!! Just
 think next year you'll
 be a big "Senior". I bet
 you can't wait!! Well,
 have yourself a great
 summer! Stay
Sweet + Crazy. May
 you succeed in everything
 that you attempt +
 May God Bless you!!

From reading, writing, and arith-
 metic to college English, calculus,
 and advanced chemistry, teachers
 worked hard at producing the sounds
 of learning, growing, understanding
 while establishing harmony at the
 same time. While producing these
 tones in their own students' songs,
 they, too, composed a song of their
 own — one of producing, teaching,
 harmonizing, caring.

Love ya!
 Gunda
