

# 7th Grade Tours Charleston

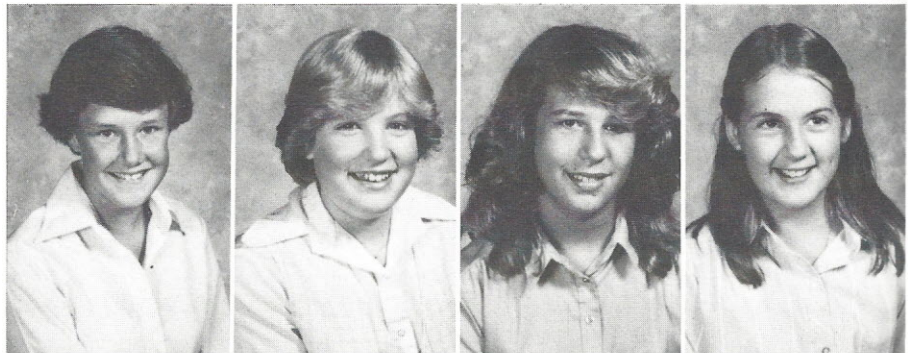

Many new experiences awaited the seventh graders this year as they entered the upper school. For the first time some were members of Student Council while most participated in the activities of Student Council. They were allowed to come to

dances, set up booths at the Halloween Carnival, and had their own dance. The seventh graders also took a class trip to Charleston to help them gain understanding of their South Carolina history. Some participated in the J.V. athletic program.

1. During science class, seventh graders observe an aquarium.
