of know you get tired of
having the same old things, like
and a great year so been and
now people have enjoyed being in your
class. I'm glad that you've gotten
to be with friends who really
Physics was fun this year especially
playing ghost and trying to get you
out. I know you didn't think it was
fun though. Hope you have fun this
summer and get to go to boys
state. Don't work to hard.
Love,
Lynn
