

Logan-

As I sit in my favorite chair in my favorite room in my house - listening to my favorite rock group - Pink Floyd - and OK "The Dark side of the Moon" - I ponder our friendship. It took quite a few turns - I've decided that this way is the best: you & I being the best of friends - anything more always seems to get screwed up. You know how much I think of you - you are one of the few individuals at Wade Hampton - one of the few people that thinks much like I do - But - the major discrepancies are large - one major conflict that shouldn't be one is of course - money. we view it totally differently I think it is simply to be spent - to be blown away - it's no good unless you use it - I think that it is there we disagree - "Money - it's a crime - share it fairly but don't take a slice of my pie...." Right? - we'll never agree - Money - Logan it's not as valuable as you have been lead to believe - Time - yes - time is what is important - waste money - not time -

Pink Floyd  
"Money"
