

Senior Year - One to Remember

hogan... As I flipped through the annual, looking for a place to sign, I remembered all the memories... All the special times we have shared together - And that's when I decided to sign on "our" senior pages because it was this year -

This senior year that I really got to know what

At last the final year of high school arrived for fifty-six anxious students. Studies, sports, and extra-curricular activities were characteristic of the year. The seniors worked long, hard hours on the class play *Yankee Doodle*, which helped provide funds for the Washington trip. The Queen of Hearts festival and magazine sales also supplied funds for the trip. In April the juniors hosted the seniors at Junior-Senior. The final stage of the year came with graduation which opened the door to a new world for the new graduates.

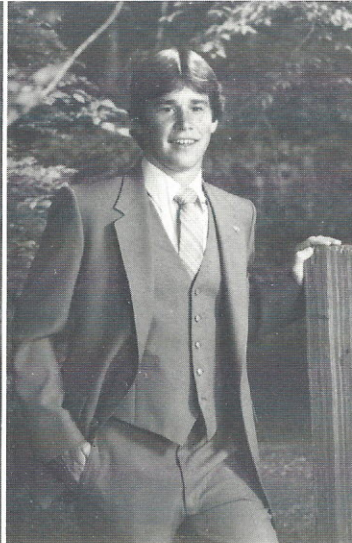

1. Seniors Debbie Rast, Carl Jones, and Sherry Williams enjoy the privilege of eating in the amphitheater.

a super, great person you are. Not only are you smart, but you are also human... and that's more that I can say about a lot of people. Remember the senior class play "I'm a Yankee Doodle Dandy" - It was great. I

loved every minute of it. I don't think the whole crew or Mr. Suber could have done the super job without you - You helped make it work. And how about
