

LOGAN (MARION),

Juniors Exercise Leadership

I never knew your name was Marion. If I would have known that, I would have called you that all year long.

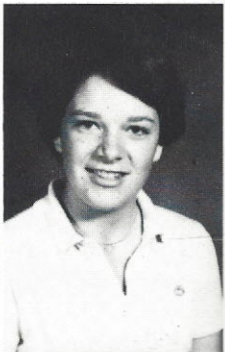

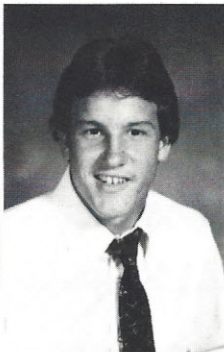

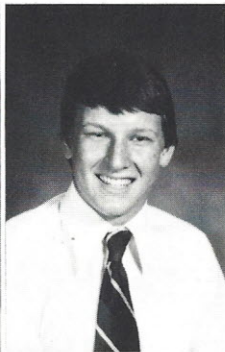

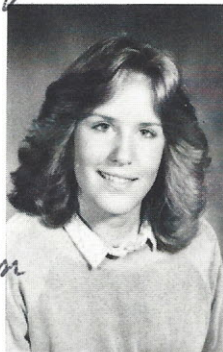

The juniors took on great responsibility this year. They participated in all phases of school life and were involved in positions of leadership. The annual Halloween Country Store was organized and run by the juniors. As always, the highlight of the year was the junior-sponsored Junior-Senior. A feature of the year's end was the long-awaited class rings which were received in the spring.

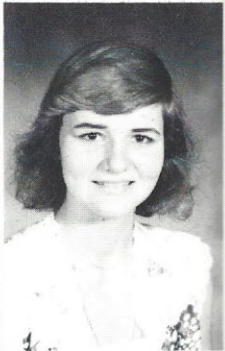

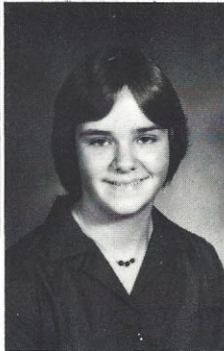

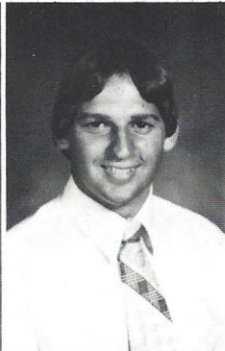

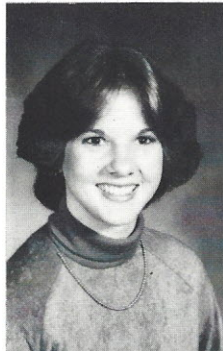

Chemistry was def. an experience. Picking on each other all year was pretty fun. I enjoyed making a fool out of you & I'm sure the same holds true for you.

Really I respect & admire you for everything, your grades, your ability, & everything. Congratulations on all the honors & I hope they continue to come your way. Good luck in the future & may God bless you always.
