

6th Grade Participates in Daily School Functions

Sixth graders encountered new responsibilities and privileges while contributing to WHA's various school functions. Their duties included the raising and lowering of the school flags, running a Lower School store, working in the canteen, and directing traffic. These students were involved in sports, spirit, and leadership by participating in Saturday basketball, cheerleading camp, and by voting for class officers. The first Lower School *Rebel Yell* newspaper provided a new aspect for the sixth graders who exercised a leading role in its production. The class took a tour of the *State* newspaper building in Columbia. After diligent study, the students graduated with great expectations for Upper School.

1. Sixth graders George Morris and Babs Fickling anxiously wait to receive their report cards.
