

Fifth Grade Band Is New Experience

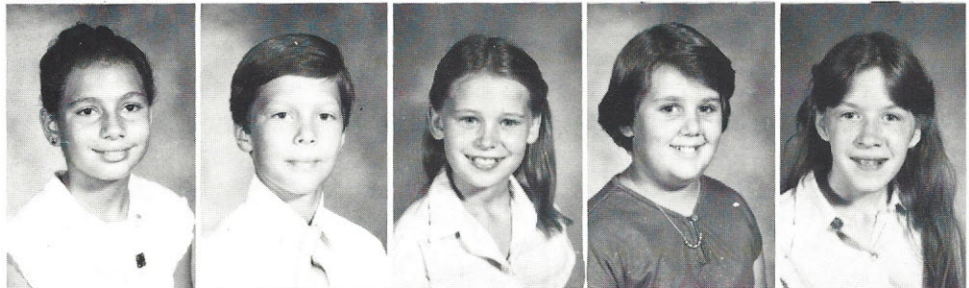

This year fifth grade students were given the opportunity to increase their creativity. The Junior Service League sponsored an art program that lasted 8 weeks. The students learned about the different forms of art and experimented with their own talents.

Many students participated in the band formed for just the fifth graders. Under the direction of Mr. Stephen Rich, they practiced hard during their study halls in anticipation of becoming the future W.H.A. band. They also enjoyed their annual class trip.
