

teachings, our lives were laid out along the lines that, we hope, will reflect credit and honor to them as well as to ourselves.

Teachers of W. H. S.: We wish to take this means of showing to you that we heartily and sincerely appreciate your efforts in our behalf—; that in spite of the times you thought us ungrateful—in spite of the little things we did to worry and harass you in years gone by, we realize with full hearts that all we are, or will be, is due entirely to you and your teachings.

OUR FACULTY

Mr. W. H. Ward, our superintendent, has always been interested in the affairs of the classes and students, and he is ever ready to help and give information on any subject. The school owes its greatest appreciation to him.

Mr. T. B. Stevenson, principal and teacher of Physics and Science, is most efficient. He has been with Walterboro High School for six years, and the school feels that he is a very necessary part. Mr. Stevenson has done a great deal to make athletics an important feature in the high school work.

Miss Genevieve Garris, teacher of Geometry and Algebra, has won the hearts of everyone for the three years that she has taught here. Her work has been excellent; and it is felt that a great advantage was had when Miss Garris came to teach in W. H. S.

Miss Maude Bruce Jones, English teacher, has been with W. H. S. for two years. Miss Jones specialized in English at college; and she has taught the students a great deal that they should know in that subject. Although Miss Jones is rather strict, we have found out that we learn much more when a teacher is that way.

Miss Mary Lee Rivers is our teacher of Music. W. H. S. almost lost a very good member of the faculty when Miss Rivers thought she would not return; but at last she decided that she could not leave us. She has been with us for three years.

Miss Beryle Brawley, playground and auditorium teacher, has won the entire student body due to her pleasing personality. She has been very successful with plays and other programs and we are very sorry that she can't be with us next year.

Miss Elizabeth Sullivan, our Bookkeeping, Typewriting, and Shorthand teacher, has done more good in W. H. S. than we can express. She is training us to be real men and women. Everyone loves her because of her kindness and sweet disposition. She's been with us for three years.

Miss Frances Hunt, history and English teacher, has just come to us this year, but we already feel we can't do without her. Miss Hunt is very quiet and sedate; but that kind often make the best teachers; and all the students say she is excellent.

Mrs. Clara Fishburne has been with us for years and we feel that something would be missing if she were not here. When we need advice or help, "Aunt Clara" is our mark. She has helped us a lot with the Library and has proven very efficient in that line.

We miss Mr. Craig Kennedy, French teacher, very much, since he left us at Christmas to become principal of Seneca High School. He was coach for the boys' athletics
