

Science Club

The Walterboro Science Club is composed of those students who are taking or have taken chemistry and physics and have maintained a three point zero average. The Walterboro chapter works in affiliation with the Junior Engineering Technical Society, also known as the JETS.

In cooperation with its sponsor, Mrs. Margaret Lytchfield, the Science Club attends state JETS's conventions, tours modern industrial plants, and is planning a tour of Oak Ridge this spring.

The aim of the Science Club is to introduce interested students to the world of engineering and technology. It is the hope of the club that a clearer understanding to today's science will insure a better tomorrow for mankind.
