

Junior Varsity Football

Junior Varsity Football

The Walterboro High School J. V. football team closed out the 1968 season with a winning record which is becoming typical of Wildcat teams. The J. V. football team is operated on the basis that young players will get experience in ball handling and football techniques before they are exposed to the Varsity level. It is the aim of the Athletic Department to have each individual as well prepared as he can possibly be, before the opening of football season.
