

Projection Club - Mechanical Wizards

The Projection Club was developed to aid its members in sharing responsibilities of equipment and materials. It offers an opportunity to its members to benefit from the teaching material they project and from various class discussions. The members learn to run projectors and in turn are able to run them for their teachers.

One of the outside activities of the Projection Club was a field trip.

Members are selected on the basis of mechanical ability and interest.

Right: Now you know why we do not have a projector that works.
