

Layouts, Copy, and Deadlines Create

Plans and ideas for the 1970-71 "Paw Print" first took shape at the Keys Printing Company summer workshop, which was held at Furman University. Four members of the staff attended a week of lectures and labs and came home with a jumble of different impressions to unravel.

With the advice and encouragement they received, the staff began to create a yearbook which would best depict life at Walterboro High School and be unique as well.
