

## Government of the Students,

The successful student council is an active student council. It promotes worthwhile activities throughout the school year, encourages students to express their opinions, to request changes in an orderly manner and to exercise the rights and responsibilities of citizenship. It is constantly working to improve the school.

The student council at Walterboro High School is such an organization. Its devoted leaders work incessantly to give the student body an active voice in school activities and in the solutions to the problems.

Ron Russell accepts the office of the presidency of student council.
