

# The Bulldog's Paw Prints 1971-72

Pictures . . . copy . . . layouts . . . deadlines . . . Senior Work Day . . . Excitement on delivery . . . The students that subscribed to the 1972 PAW PRINT little realized what putting out an annual involved.

The work for the 1971-72 PAW PRINT began when the editor and photographer attended a summer workshop at Furman University. Returning with many ideas and instructions, the annual staff began compiling an annual that would depict life at WHS.

With the guidance and encouragement of Mrs. Skardon, the annual staff has tried to successfully focus the student's attention on the activities of the past school year.
