

D. E. Works

Young men and women getting ready for the world of work; Learning while earning — these are the goals of Distributive Education. The young people enrolled in D.E. work under a cooperative program whereby, they attend school part of the day getting regular academic instruction plus instruction in D.E. on how to sell, set up displays, advertise, and carry out the general functions of a business enterprise. They then report to work to practice what they have learned in the classroom. The Distributive Education Club is sponsored by Mr. Arliss Jarvis.
