

Working to Make the Family Unit Secure

The Future Homemakers of America is for students studying home economics. Members are working toward the overall goal of helping individuals improve personal, family, and community living - now and in the future.

All activities of the organization are of such quality that it will enhance the name of the organization. In Homemaking and Consumer Education classes, we are striving to teach courtesy, social graces, good grooming and respect for others.

Our FHA chapter participated in all district and state contests and received excellent ratings and a monetary award.

Any student who is or has been enrolled in home economics is eligible for membership in the Future Homemakers of America.
