

Devoted to Technological Progress

The Science Club was organized by students in the pursuit of scientific information outside the regular classroom. The members seek a clearer understanding in the fields of engineering and technology. The Science Club is affiliated with the Junior Engineering and Technical Society.

The main project each year is a trip to some place of special scientific interest such as the Oak Ridge Nuclear facilities or National Aeronautics and Space Administration installations.

Members: Lance Whitlock, Kinny Mack, Melvin Steedley, Nancy Fralick, Jeannie Miley, Carol Drawdy, Lynn Seigler, Joyce Canaday, Bridgette Harris, Julie Simons, Mrs. Lytchfield, Sponsor, Mark Whitlock, Kelly Howe, and Sammy Wullner.
