

Action - Timing - Determination - Practice

The track team has again this year displayed a tremendous amount of physical ability and the scores of the meets have proven this. All the members of the team, coached by Coach Gerald Price, have spent much of their time in order to form a winning team. Timing, practice, and determination have been the main factors in achieving this goal.

Every year this sport gains more fans and plays an important part in the school's athletic program.
