

History Club Surveys Its Heritage

The History Club provides an opportunity to those students interested in the past to go an extra mile in surveying their heritage. The club's activities include the collection of artifacts, trips to Charleston for a candle light tour, Fort Dorchester, and Charlestown landing. Emphasis is placed on vacation travel to historical points of interest. Mrs. Barnes and assistant, Mr. Willis, attempt to point out the importance of the efforts of past figures in building the present. Hopefully, students will find the study of history a challenging enough field to consider a possible career as historians or teachers of history.
