## Bulldog Staff Widens Its Coverage Of The News

The Bulldog staff tried to extend its coverage of the news to include matters of national and international importance. By relating information to the local community, the staff met its objective of more adequately meeting the needs of the students it serves.

With a circulation of four hundred copies per edition, the staff members worked hard to meet the budget. Using new features, special interviews and photography the *Bulldog* drew student interest, while providing information.

Mr. Lewis shows Malissa and Evelyn how to set up an ad.
