

PROJECT:

Walterboro High has undergone many changes. The spring visitation of the Southern Association evaluation team was instrumental in a large number of these changes. For instance, they recommended the removal of the old gym.

(Above) Walterboro's first foreign exchange student, Christine Wagner is here to acquaint herself with the American lifestyle.

(Above Left) These crumbled ruins are all that remain of the campus rattrap, the old gym.

(Left) Four new doctors, Dr. David Hiott, Dr. Ben Kittredge, Dr. J. Frank Biggers, and Dr. John Johnston, have joined with Dr. Joe Flowers in opening the new, modern Walterboro Medical Center on Church Street.
