December 10th was a red letter day for the junior class. Class rings, symbols of "senior status" arrived in time for Christmas.

The juniors were eager to show off their treasures. Whether you were interested or not you had to look and admire; and some were worthy of admiration. The stones were every color of the rainbow; priced from \$45 to \$95 and ranging from size 4 up to size 12! Settings could be gold or silver with designs indicating various school activities such as chorus, athletics and academic symbols.
