

Being on the Faculty isn't just worries, Headaches, and salaries, it's also teaching, as Mrs. Talford proves here.

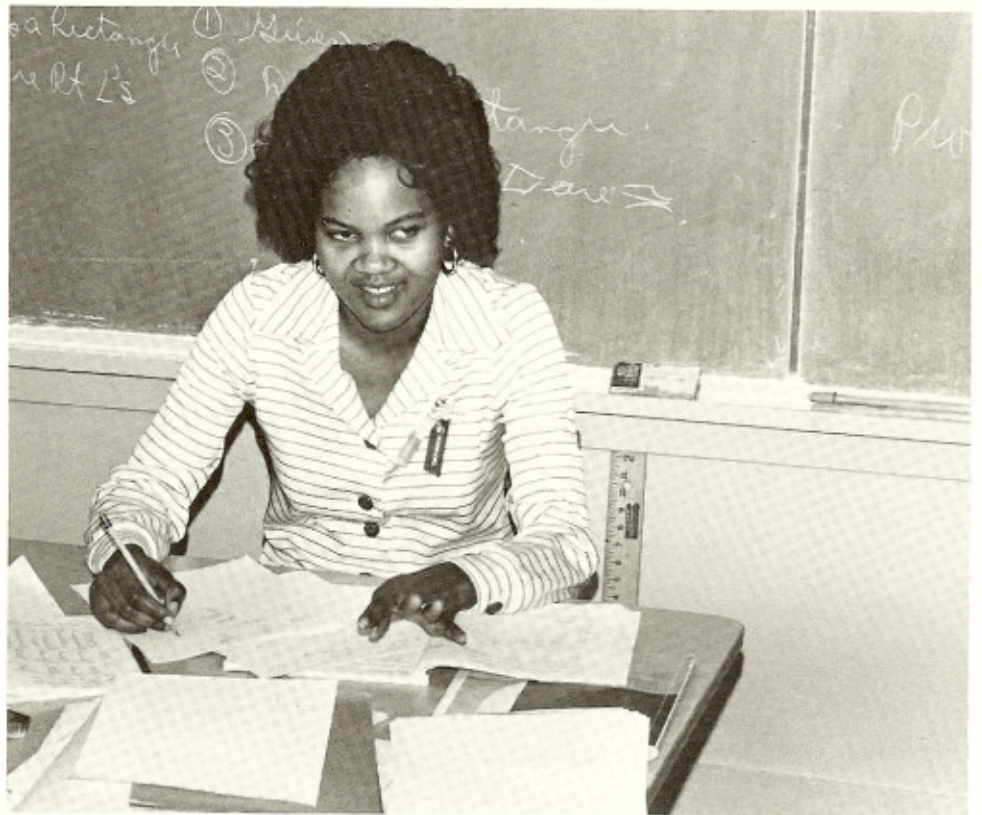

# MENTORS

In case you don't know what mentors means — don't feel bad — not many people do! Mr. Dreyer came up with the fabulous idea to use it.

After looking in dictionaries and encyclopedias, this is what we found . . .

Mentor was a faithful friend of Ulysses, whom he trusted with the care of his domestic affairs during his absence in the Trojan War. Thus the education of Telemaches, Ulysses's son, befell upon him. When young Telemaches set out on his voyage in search of his father, he was accompanied by Mentor, who served as his teacher.

Since this time "mentor" has come to mean "a teacher or instructor."

Hey you guys cut it out! Mrs. Simmons tries to keep order in class.
