When in the course of Bulldog history it becomes necessary for one team to destroy the teams which they play, and to rely upon the laws of training, and the demanding and explosive powers to which the rules of the Coach entitle them, a decent respect for the people who support them requires that they declare the causes which impel them to their wins.

We hold these truths to be self-evident that all Bulldogs are endowed by the Coach with certain rights, that among these are: battling, stomping, and crushing any other team to win.

Where are you going Coach? Coach Stark walks around while the team warms up.
