

Hey, we're smarter than you think, we stay where the books are.

Looks like we've got it all together. Let's Celebrate.

CLASSES

Colleton High School, which houses ninth and tenth grade, has a separate physical plant, faculty, and different course offerings: but it is also an integral part of Walterboro High.

Junior Varsity sports participants and cheerleaders come from Colleton. Their Pep Club, too, helped cheer the teams toward victory. Two teachers from Colleton Ms. Belton and Mr. Applebee, coached our girl's Varsity basketball team and the baseball team.

Annually the choruses from both schools combine to present the Christmas Concert and the Spring Concert. Band members from CHS and WHS unite for the Pops Concert and the Spring Concert. Both schools share the school publications; events at Walterboro High as well as those at Colleton High are covered in the school newspaper and annual. Another activity both have in common is the Student Council. WHS Council members travel to Colleton each year to assist Colleton's Student Council with their elections of Student Council officers and class elections for the rising juniors.

In some ways we are separate but there is also an invisible bond.

I guess you think that we never pay attention.
