

Student Life

Activities and honors engaged our students during the '76-77 school year. Many new organizations were started this year. Many of our clubs went on trips during the fall and plan to go on some during the summer. The criminology class attended an interesting court session.

All sports were made exciting by large student participation. Pep rallies showed a great deal of spirit due to the cheerleaders, players, band, and especially the students. This was indeed a good year that all the students will enjoy remembering.
