

CONGRATULATIONS SENIORS!

Senior Class Officers Derelle Jamison, Paul McDurfee, Marisette Broadney and Maria Smith hear Westvaco District Forester V. T. Chastain explain how the multiple-use concept of land resources management benefits the public. Although trees are still the primary and most important function, and timber production the major forest use, others include wildlife habitat, watersheds, and recreation.

The faster it spins, the more you spend.

The purpose of that rotating disk on your electric meter is to measure the amount of power being used. The more you're using, the faster it goes. And the higher your monthly bill will be. Keep that in mind. And use electricity wisely. Because whenever you waste power, you waste money.
