

Theresa Fishburne and Lynn Breland find something interesting in their pamphlet.

Ed./Op. Day . . .

A Look at College

The Ed.-Op. program, which has been a tradition for many years was designed to help students learn more about the college they wish to attend. This year's program was as successful as the others, as Juniors and Seniors from Ruffin High and W.H.S. made their way into the gym to see what they could discover.

Mrs. Waring the 12th grade guidance counselor, and

the coordinator of Ed.-Op., stated that "Ed-Op gives students a chance to meet the college Representatives from throughout the state and it also enhances their knowledge about the program." The program consists of 45 colleges throughout the state and approximately 1,000 students. Out of the many colleges which participated Clemson and U.S.C. were the most favored by students.
