

Singing

A Sound Investment

Sit up straight, be expressive, sing from your diaphragm, and remember to use an oval tone—these were the four points of good singing that made Mrs. Dorothy Mae Buckner's chorus a "sound" investment.

The Walterboro High Performing Chorus was composed of nearly 90 members, and each one worked hard to put on a show better than the one before.

Through the Christmas and Spring Concerts, the chorus and Mrs. Buckner proved that hard work, discipline, and talent could produce a sure first class act.

Practicing for the processional "Hosanna" are chorus I members.
