# Weekends

*What teenagers need to know.*

Friday, Saturday and Sunday were the days we had to relax after a fatiguing week. But did we really relax, or was our relaxation just as much "work" as our work?

On Fridays we came to school "pepped up" to enjoy the last day of the week. We enjoyed the day by talking too much in class and planning our weekend.

On the lazy days, Saturdays and Sundays, we picked up our friends, drove down town, and gave the merchants a rough time.

Saturday nights were for movie watching, babysitting, and dates. We never let up and our schedule only got heavier.

As it turned out, our weekends were about as restful as our week but we enjoyed them nevertheless and had a First Class time.

---

Saying good night to Jeff Benson after a Friday night party are Theresa Smith and John Nugent.
