

The Special Olympics

Everyone is a Winner

The Special Olympics was a program designed for the handicapped. It included a number of schools who brought many participants to compete in different sporting events.

Another part of this program included student volunteers from W.H.S. and R.H.S. which helped with the different sporting events and with lunch preparations.

This program was helpful to its partici-

pants because it gave them a feeling of confidence and in those games of competition, no one lost.

Coach Doug Bullock cheers students on during the Special Olympic Games at Bulldog Stadium.
