## Mad Scientists

Science club members were introduced to a higher understanding of science through class discussions and a trip to the Epcott Center. In order to join the group, you must have had an 85 average and a letter from your present science teacher.

The objectives of the Jets Club was to

encourage pre-college level students to excel in their studies and to emphasize college preparatory courses in math, science, and communicative skills.

The main project of the Jets was to tutor students in areas in which they needed help.

Sandra Rice performing an experiment.
