

Girls J.V. Basketball

A Disappointing Season *but improving*

The J.V. Girls started the year with high hopes. They lost their first game but not their drive. As the season went on, the girls practiced and improved. Even when things looked as if they couldn't get any worse, the J.V.'s wouldn't quit.

Debbie Doctor lead the team in scoring

with a 3.1 point average a game, while Chris Hudson followed with a 2.7 average. Everyone worked hard all year. They learned a lot and gained much experience. They will be a welcome addition to the basketball program of next year.
