

## Campus Life

Eating and sleeping, shopping on the weekends, studying during the week hoping for a better grade, and waiting for graduation and summer vacation were all part of a student's life.

What did students do with their free time? Some were involved with school related activities or intramural sports, others had jobs after school, while some just hung around and relaxed.

After school hours, weekends, and vacations were considered the student's life. Leisure time was necessary, for all work and no play would not have made Walterboro High School's year a **First Class Act**.

---

Sitting in Mrs. Scotti Hooks class, listening to a speaker, was a common occurrence.
