Obviously Freshmen

Everywhere you turned—Freshmen! Freshmen! How did you know they were freshmen? Well, when they had this confused, half-scared-to-death look on their faces, what else could they have been?

How soon we all forgot that we were all freshmen at one time. The awesome feeling of being alone in a crowd. Just knowing you'd never get to your next class because it was all the way at the other end—perhaps the longest walk you had ever taken. Jennifer Artlip said, "I thought I'd never make it upstairs to Coach Hall's 3rd period class on time because my 2nd period class was in the gym. Believe me the first year of high school is hectic!"

Scott Ballard and Grant Rollins show their spirit during their first spirit week.
