

AFTER SCHOOL, WHAT?

Chances are good we're already "in your blood" — that is if you've eaten any meals at school.

Our new distribution center in Walterboro is unparalleled in the Southeast, and we're **still** growing! Let's discuss our futures together. Contact:

A Red Cross Nurse checks a donor's arm and blood pressure.

GIVING FROM THE HEART

The Bloodmobile made a regular visit to the school on February 21, 1985. Red Cross Nurses, with the help of volunteers, made the Bloodmobile a success. The response was overwhelming. Twenty donors had to be turned away at the end of the day due to lack of time.

During the days before the Bloodmobile came to school, the fear of giving blood was the topic of many students' discussions. Some students and faculty members were so frightened that on the days of the Bloodmobile, they could not donate because of irregular pulses or other self-induced "diseases."

However, the brave ones proved us all wrong in thinking that everyone was too scared to give blood. In this drive, students and faculty donated over 120 pints to the Red Cross.

Because activities were limited, restless students signed up like never before to donate blood.
