Helps Make it Perfect

Catching some waves, jumping a ramp with a skateboard, or returning someone's serve was a popular weekend recreational hobby. Students used their free time on the weekends to take part in those activities that they can never find time to do during the hectic weekdays. Volleyball, tennis, surfing, golf, skateboarding, and football were the most popular ways to expend their energy.

A few students, mostly made up of soccer team members, traveled to the Isle of Palms for a weekend of surfing fun. "Every chance I can get, I am surfing. It is a great way to stay fit and meet new people," said senior Scott Schlessner.

Tennis was a sport that was played by members of the tennis team to get more practice. "I feel that I have improved so much because of weekend practices," commented senior Scott Catterton. He continued, "I can just go out to the courts and hit for an hour or so and feel very comfortable with my game."

As the year came to an end, students became increasingly interested in volleyball. "Since most of us are in band, we can not play during school. We meet after school at my house and play," said Leslie Williamson.

These sports all incorporated strength, balance and flexibility. "We all just get together," stated Blythe Buchanan. "That was how most of the group was organized."
