## MUSIC

## WHAT'S HOT?

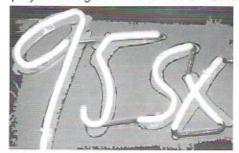

Influences in teens lifes... the effects of music in education...Interview with 95sx radio station....

Some of life's most memorable experiences involved music. Music echoed at important events such as parties, football games, proms, dates and graduation. Lately, music has become more than just a form of entertainment; it has become a mainstay in society. Many fashion trends and dayto-day events were created because of popular music.

Music influenced everyone in different ways. The popular music of today created fads in fashion and culture.

"People look at me and say, Oh there goes that freak girl," says sophomore Amanda Jones. Music today played a huge role in a teen's life. It

affected one's personality, as well as the way he/she dressed.

Fashion and society were reflective of popular music today. A fad could be created because a song or musical group influenced it."If you listen to rap music, then you will dress thugged out," explained sophomore Brian Teasdel.
