**"The worst thing about the first day of school was knowing I have to get up early for the next 179 days of school."**

**Reuniting Friends...**Students find time to catch up on the latest summer gossip. Some, like junior Ashley Murdaugh, began the school year in an educational state of mind. Ashley was inducted to the National Honor Society in the fall of 2000.

**Getting in the swing of things...**Almost all students look forward to the end of the day for their after school thirst quencher. Already on the 1st day of school, junior Quinton Muckelvaney picked up his after school habits.

**Sweet Cancun...** Many people dream about it, but few people do it. Senior Aston Hetrick and her god-sister enjoy a great summer vacation at Cancun, Mexico. This was certainly a sweet treat for Aston's seventeenth birthday.
