

SPIKE IT OVER!

Volleyball- 1 in the Spiking Industry

BUMP...SET...SPIKE...SCORE! After a long, strenuous volleyball season, junior Ashley Murdaugh is not the happiest player. She says "The team would have gone to playoffs if everyone would have played their best!"

Ashley played on the varsity volleyball team this year and led the team to victory.

Volleyball was a sport that required absolute dedication. "Volleyball games can get real tense. The competition during our matches is unlike any other sport that I have ever played," Ashley said.

Overall, everyone worked together as a team to win a game. One person could not win the game for the entire team, it took team work. Everyone on the team put in an equal amount of effort. One person could not led the team to victory. Members of the squad took turns being motivators and team leaders.

Although volleyball was a serious sport it wasn't all hard work and no play. Practice and games were a lot of fun for members of the team. " At practices we cut up a lot but when it gets down to it we work real hard. We know how to balance out our work and play," said junior Erin Driggers.

The team shared many fun and humorous times together. "We had a lot a good times this year, we had a lot of fun;especially on our away game trips." Ashley said.

The volleyball teams worked hard to show off of their talents. They worked hard to win their games. Sometimes they accomplished their goals and sometimes not. No matter the outcome they were satisfied with how the season went.
