

Out Of Words

High School! How bad can it be? Well, it's not all that bad. Seventh grade starts a new stage in one's life. They get the privilege of having more than one teacher and more homework! Eighth grade gives the students a little more responsibility, and the courses get a little harder. Ninth grade gives you a title of Freshmen. The Freshmen year is the first year of earning credits toward graduation. The Sophomore year is full of decisions. Decisions about what courses you will be taking, boys, and serving at the prom. The challenging year is the Junior year. Projects to make money for the prom begin. These projects include selling tickets, doughnuts, and fruit. College decisions and career decisions might be made by Juniors. But, of course, every Junior can't wait to be a Senior.

Sophomores and Juniors are just playing it cool and hanging out in the gym.

Angel Crim shows her strength by holding Jonathan Barnes in the library.
